

2017 Product news calendar

Gennaio | *January*

SME53 • SME54

High resolution and programmable linear encoders.

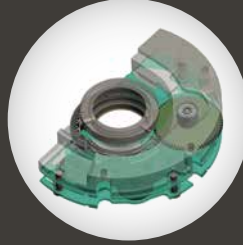

Febbraio | *February*

AMM8A

Frameless absolute multiturn encoder for robotics.

Flat design & through hollow shaft.

Marzo | *March*

ASC85

Absolute encoder with Ø50 mm through hollow shaft.

25 bit singleturn resolution with high accuracy.

For robotic systems, radars, advanced motor feedback systems.

Aprile | *April*

HANNOVER MESSE

April 24 - 28, 2017
Hannover, Germany

Maggio | *May*

SPS IPC DRIVES

May 23 - 25
Parma, Italy

sps ipc drives
ITALIA

Tecnologie per l'Automazione Elettrica
Sistemi e Componenti
Fiera e Congresso
Parma, 23-25 maggio 2017

Giugno | *June*

SMAB

Robust absolute bearingless encoder with low profile.

Axial magnetic sensing, high environmental protection IP69K.

Luglio | *July*

MRA • SMLA

Bearingless absolute encoder with segmented ring.

For installation on big and inaccessible shafts.

Agosto | *August*

CB62

Feedback encoder for gearless motors.

Expansion flange for easy installation (plug&play).

Incremental and absolute versions available.

Settembre | *September*

AMM36

Miniature absolute multiturn encoder module.

Singleturn resolution up to 21 bit.

For integration into servo motors & brushless motors.

Ottobre | *October*

interlift
2017

October 17 - 20
Messe Augsburg, Germany

Meet The World:
interlift 2017
17. - 20. Oktober | Messe Augsburg | Germany

Novembre | *November*

SPS IPC DRIVES

November 21 - 23
Nuremberg, Germany

sps ipc drives

Electric Automation
Systems and Components
International Exhibition
Nuremberg, Germany, 21-23 November 2017

Dicembre | *December*

EM58, HS58, HM58 Ethernet IP Series

Absolute single & multiturn encoders with Ethernet/IP interface.

EM58 general purpose series.

HS58 high accuracy singleturn series.

HM58 high performance multiturn series.
