Product news calendar

lika

Gennaio January

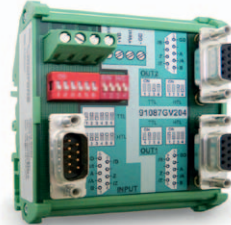

CB50 series

- Encoder with UVW signals for brushless motors.
- Operating temperature up to +115°C available.
- Up to 2500 PPR & 4-6-8 poles.
- Variable cable length on request.

Febbraio February

IF09 series

- Low-cost signal splitter for encoders.
- 1 TTL/RS422 or HTL ABO/ABO input.
- 2 selectable outputs, TTL or HTL.
- Signal level converter from TTL to HTL.

Marzo March

I58 series

- New high resolution versions.
- Increased accuracy from 2500 to 10000 PPR.
- Improved sine/cosine output.
- Wide operating temperature range, -40°C to +100°C.

Aprile April

HANNOVER MESSE
01 - 05 April 2019
Hannover - Germany

Maggio May

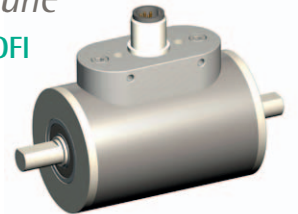

sps ipc drives
ITALIA

SPS IPC DRIVES ITALIA
28 - 30 May 2019
Fiere di Parma - Italy

Giugno June

TORQUEPROFI

- World premier torque sensor up to 5Nm.
- Torque measurement up to 5Nm.
- Instant speed output.
- Absolute position available.
- Programmable alarms.

Luglio July

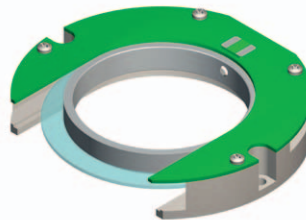

IXD

- 1 & 2 axes acceleration sensor.
- Robust metal housing.
- IP67 protection for outdoor use.

Agosto August

ASM80

- KIT encoder for robotics.
- Absolute single turn with 21 bit resolution.
- Precise optical sensing.
- Ø47 mm hollow shaft.

Settembre September

SMAB

- KIT encoder for robotics.
- Absolute single turn with 18 bit resolution.
- Magnetic sensing.
- Ultra flat design for OEM applications.

Ottobre October

interlift
2019

INTERLIFT
15 - 18 October 2019
Augsburg - Germany

Novembre November

sps ipc drives

SPS IPC DRIVES
26 - 28 November 2019
Nuremberg - Germany

Dicembre December

SMEx1

- Incremental linear encoder.
- Magnetic sensing.
- Improved resolution up to 80 nm.
- Diagnostic LED's.
