

# 2020

## Product news calendar

# lika

### Gennaio January

#### IF11 series

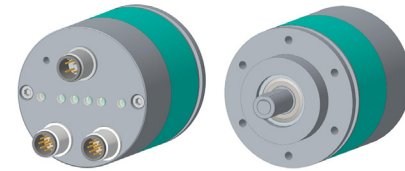

- SSI encoder signal splitter.
- Works as Master or Slave unit.
- Long distance data transmission.

### Febbraio February

#### EM58 series fieldbus

- Compact housing with axial connectors.
- Shaft & hollow shaft versions.

Modbus

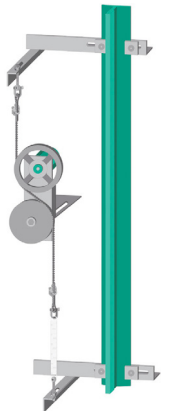

PROFIBUS

EtherNet/IP  
ETHERNET  
POWERLINK  
EtherCAT

### Marzo March

#### SC System

- Shaft copy system with incremental & absolute encoder.
- For elevators & height measurement on cranes and storage systems.
- Measurement length up to 150 meters.

### Aprile April

20-24 APRIL 2020  
TRANSFORMATION IS EVERYWHERE. ITS HEART BEATS HERE.

HANNOVER MESSE  
20 - 24 April 2020  
Hannover · Germany

### Maggio May

26 - 28 May 2020  
Fiere di Parma · Italy

### Giugno June

#### AMM36

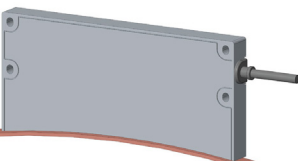

- KIT encoder, single & multitrn.
- For electromedical devices & servo-motors.
- Precise optical sensing up to 23 bit.
- Ø 35 mm diameter, low height.

### Luglio July

#### SMAH2

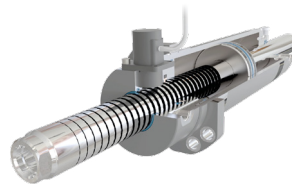

- Ring encoder for diameters up to 2,6 m.
- For windgenerators, turbines & rotary tables.
- Absolute contactless sensing.
- Resolution up to 20 bit.

### Agosto August

#### SOIC1

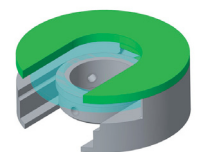

- Linear sensor for hydraulic cylinders.
- For Off-road vehicles & heavy-duty applications.
- Incremental & absolute sensing.
- Measurement length up to 1500 mm.

### Settembre September

#### AMM31

- KIT encoder, single & multitrn.
- For robotic joints & electromedical robots.
- Through hollow shaft up to Ø10 mm.
- Precise optical sensing up to 23 bit.

### Ottobre October

#### EPU Wi-Fi actuator

- Integrated positioning unit.
- For packaging, pharma & food processing machines.
- Through hollow shaft up to Ø20 mm.

### Novembre November

### Dicembre December

#### SMEx1

- Ultra compact linear KIT-encoder.
- For surgery-robots, linear motors & printers.
- Absolute optical sensing up to 3000 mm.
- Sub-micron resolution.
