Smart encoders & actuators

EtherNet/IP™

Product selection

# ROTACOD

Absolute encoders with Ethernet/IP interface

lika

Series

EM58 • HS58 • HM58 EP

- Single & multi turn Ethernet/IP encoders
- Fast and precise optical sensing
- Resistant against magnetic fields
- Integrated hub
- EM58 series general purpose encoder; HS/HM58 for high-end applications
- M12 connections
- Integrated Dip-switches for node setting

EM58 • HS58 • HM58 EP

EtherNet/IP™

# ROTACOD

ATEX Ethernet/IP encoders

Series

XAC77 • XAC81

- ATEX II 2G Ex d IIC T6 Gb, II 2D Ex tb IIIC T85°C Db certification for zones 1, 2, 21 and 22
- ATEX cat. 3 certification for zones 2, 22
- Heavy-duty fieldbus encoder
- Single and multiturn version
- Velocity output, roundloop function
- For harsh environment such as steel mills, mobile equipment, construction machinery
- Stainless steel housing available on request

EtherNet/IP™

XAC77 • XAC81

# POSICONTROL

Ethernet/IP converter for linear and rotary encoders

lika

Series

IF55

- SSI linear & rotary encoder gateway
- All typical encoder functions available
- Position output
- IP65 protection
- Robust metal housing
- DIN-rail snap-on installation possible
- Special versions on request

IF55

EtherNet/IP™

# DRIVECOD

Rotary actuators with Ethernet/IP interface

Series

RD1A • RD6

- All-in-one rotary actuator
- Integrated drive and position controller absolute multiturn
- Closed loop position control
- 150 and 250W bldc motors, size 70
- Real absolute multi turn encoder with 65536 turns
- Integrated fieldbus interface

EtherNet/IP™

RD6 • RD1A

Since its inception in **1982**, Lika Electronic has continued to develop and manufacture high quality **incremental and absolute, optical and magnetic, rotary and linear encoders, rotary actuators, displays, signal converters and encoder interfaces.**

Through a longstanding North American partnership with **Hymark Ltd.** in Owensboro, KY and dedicated sales offices in Columbus, OH, Lika Electronic maintains an efficient distribution network, excellent customer service and technical support for strengthening its role as a global leader in the encoders and position measurement industry.

Lika Electronic is certified for compliance with **ISO 9001:2015 quality management system.** All Lika's products are designed and manufactured to fully meet the requirements of CE, RoHS and REACH directives, most of them are UL and CSA compliant too.

## Application fields

Utility vehicles

Bottling/Labeling

Lift/Elevators

Wind energy

- Factory automation
- Cranes
- Steel mills
- Logistic equipment
- Harbor equipments

- Textile machines
- Building material
- Packaging & food
- Printing
- Woodworking

- Semiconductors
- Solar plants
- Electromedical
- Stone & marble
- Metalworking... AND MORE!
